EDUCATION & SKILLS SHOULD NOW GO HAND IN HAND

About Education:-

- Education is a powerful weapon that aids an individual to face the adversity of life and overcome societal stigmas such as poverty, unemployment, gender inequality, and exploitation etc, and helps to achieve success. Education is the hope of growth & development of the country.
- The importance of education and its significance can be understood through the life of an ignorant and illiterate person, who has never had the chance to visit the school due to financial crisis and is experiencing the bane of illiteracy. He / she can value the answer to the question-' Why is Education an essential factor in our life?' He/she knows the prominence and importance of Education and its changes in an individual's life.

ERADICATING UNEMPLOYMENT THROUGH PROPER EDUCATION & SKILLED COURSES

- The substantial effect of illiteracy is 'unemployment.' Unemployment hinders the progress of a nation-leading to low standards of living and an increased crime rate. India is home to twenty million youths that graduate annually from various disciplines, and who still struggle to get jobs. This adversely affects the economic development of the nation.
- Educating youth and adults through various skilled courses reveals the hidden potential, which could lead India to the path of development.

SKILL DEVELOPMENT:-

- Skill development is a vital tool to empower people, to safeguard their future and for their overall development. It is an important aspect that enhances employability in today's world.
- Skills are as essential as one's academic status. Henceforth education and skills should go hand in hand. They are the roots behind the economic growth and community development of a country.

About Us

- DBM India empowers our youth & adults of the society in a fundamental way so as to enable them to earn their livelihood. It allows an individual to explore the world through their skills & knowledge.
- In DBM, Vocational training or Skilled training is targeted toward the underprivileged and dropouts and those who cannot or don't wish to do higher education.
