Tie up with Vedantu

During the Covid, DBM attempted to teach the slum kids through the online mode for the first time. With help of volunteers and donors (tabs and data packs), **we managed to teach at least 200 kids of classes 8th, 9th and 10th in subjects like Science, Maths and English.**

Buoyed by our maiden successful attempt, **we have an ambitious plan to help the bright kids of these classes in future also and for that we have tied up with Vedantu - which is India's No.1 LIVE tutoring website with Best Teachers.**

They have very kindly agreed to teach 200 of our kids on their platform.

this will bring the best of education to them and help their parents to save money on costly tutions.

DBM BCAS CES Program

We completed this year's successful run of the CES Project with the volunteers from BCAS.

For 12 weeks these highly reputed and socially committed CA's, CS and Advocates, despite their busy tax and legal practices, taught english tumour slum kids.

We are amazed at the level of commitment shown by them and the vast amount of thought and preparation they all made before each class, to make the classes more interesting, interactive and impactful.

We are thankful to the BCAS office bearers for making this possible and look forward to the next session.
