DBM CREATING ENTREPRENEURS

- DBM is empowering many women to become Entrepreneurs

RABIYA KHAN

"SELF CONFIDENCE IS A SUPER POWER."

Rabiya, one amongst the thousands of women who dream of educating her children. Her husband did not earn enough to support this dream because all that he earned went taking care of their basic needs.

But Rabiya was determined to empower her children.

She approached DBM India for a loan of Rs.10,000/- which she promised to pay back in 8 months. She set up the vegetable stall and on the the beginning of the 8th month she has repaid the loan and is an example to many in her neighborhood because she believed in herself and worked towards her success.

TEACHERS CAN CHANGE LIVES WITH THE RIGHT MIX OF CHALK AND CHALLENGES.

VOCATIONAL TRAINING

- ECCE practical sessions
- Activities like thumb printing and puppet making

Early Childhood Care and Education (ECCE) is about educating women to know about sensitive and caring development of a child in their early ages. This course involves learning through Audio/Visuals and Brain motor skill development. The aim of ECCE is to provide holistic development of a child's social, emotional, cognitive and physical needs in order to build a solid and broad foundation for lifelong learning and wellbeing.

CONGRATULATIONS
