# UDAAN FUN FAIR MEET

DBM runs the Udaan Scholarship project at it's Deonar and Khar Education centres.

To foster peer growth on 5th November they all met with their buddy partners and spent an entire day engaging productively with their teachers, mentors and partner students.

A life skill interactive session was conducted by Mr. Dodeja, followed by knowing your peers and reflection on how the Udaan Education project is helping the students transform their lives.

After a sumptuous lunch all the students participated in a talent show where they shared poetry written by them, did gymnastics, quiz, rubix cube, song and dance.

Teachers conducted interesting activities focused at developing the growth mind set.

# ALUMNI MEET OF OUR STUDENTS

A place where old students meet our new students. In this our alums share their experience and the current students share their challenges to find a solution.

It was an interactive session with many different games and activities.

## ANTARANG

Career Guidance sessions are being conducted by DBM India in collaboration with the Antarang Foundation. These sessions are being held for class 9th to 11th in 4 schools, where we help the students to understand their career path and growth for a better future.

A total of 635 students are being trained under this program.

# CHILDREN'S DAY CELEBRATIONS AT OUR CENTRES

We believe in empowering students by providing them with all the facilities they need to make their future better.

We the Team of DBM India Celebrated this day by giving School Bags and Shoes to the students in need.

# LETTER OF APPRECIATION FROM FATHER AGNEL SCHOOL

Respected Madam,  
Farheen Peshimam,  
Director – Project and Program.  
DBM INDIA.

Madam, I sending you science fair feedback.

- The students and teachers of FATHS were invited by your esteemed school for science fair on 22/09/2022.

We are immensely grateful to you and would like to continue this bond of neighborhood school with you always.

Words are not enough to express gratitude by my school students took with themselves knowledge exceedingly wide.

- Experiments and projects were so thoughtfully shown and displayed that students and teachers still have fresh memories with them. As I write to you about my experiences, I can almost feel that I had been to fair yesterday. Although its more than half a month that has got over.

Students had expressed their joy and fun-loving activities that they have got over.

Madam, your school students are truly gifted. Their hard work and your enthusiasm were clearly seen.

- Presentation by your students have deeply impacted minds. Girls especially were explaining with confidence. No doubt their knowledge on science is clear and to the point. Purpose of such fairs is to show practical and relevant information which otherwise is not understood by others. This purpose was truly

met. Young enthusiasts were eagerly seeking for more. Quenched were those. Teachers who came with intensions of taking back with themselves knowledge and memories to satisfy the urge in students to know and learn through experimentation. Students of Fr. Agnel were amazed to see how Tsunami takes place and yes who puzzles caught them unaware.

- We wish to attend your science fair again and do let us know about any other subjects' fairs that you may be wanting to have.

Madam, a small word of appreciation for you. As your name stands for you truly are far sighted.

I must mention that its your confidence in young minds and motivation that could attract students and teachers from various schools.

Thanking you for opportunity extended to us.

  
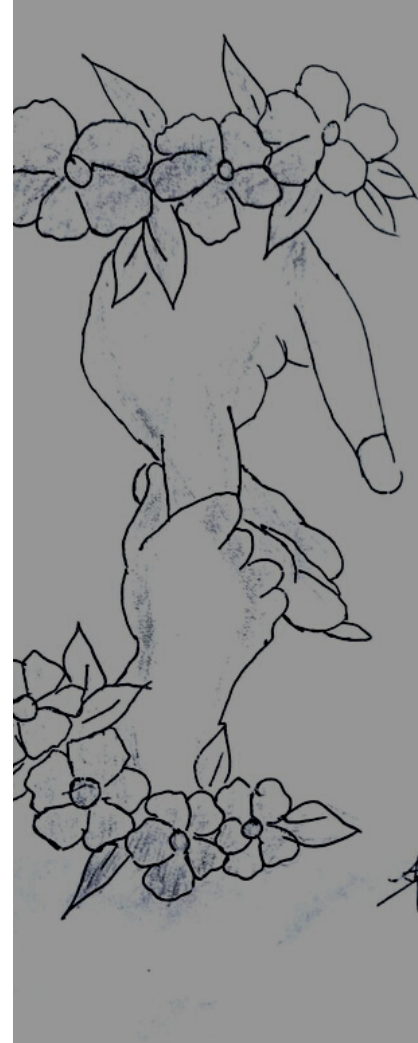

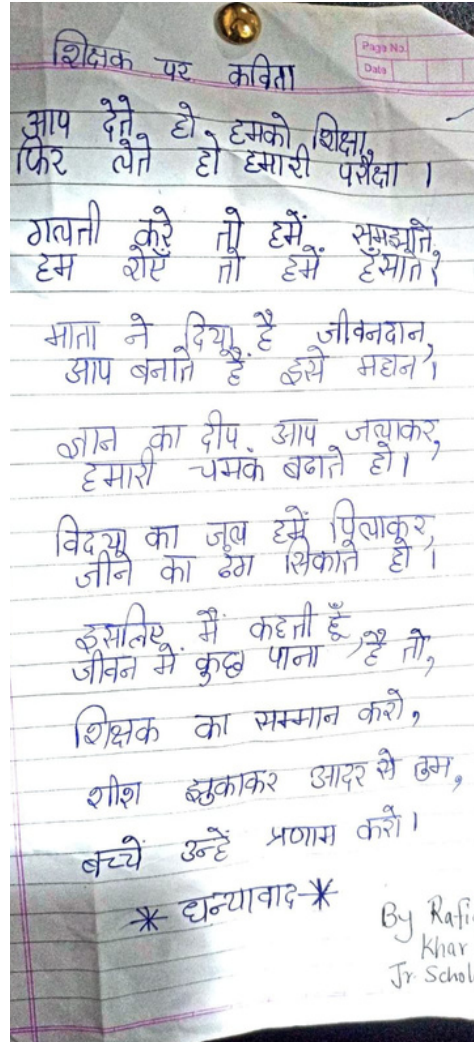

FATHS.
